

# Hexahedron 999®

## L'eau **VORTEX** Water

### **Hexahedron 999® Whole House Unit**

With DuPlex Filtering System  
L-H-D 15" x 17.5" x 8.5"

### **Hexahedron 999® Whole House Unit**

With TriPlex Filtering System  
L-H-D 23.5" x 16.5" x 9"

The DuPlex Unit is ideal for most households of up to 5 persons with dwelling surfaces up to 2500 sq feet. Comes with two sediment and one KDF55@GAC filters - which should be good for one year (depending on the quantity and quality of the water). The combined filtering system improves taste, eliminates odors, removes heavy metals, removes chlorine, increases the negative ions and gives a soft taste to the water. The Hexahedron 999 installation kit shown on the right of the above photos is also included with the package. The dimensions of the DuPlex Unit are : L-H-D 15" x 17.5" x 8.5". Allow at least 8 inches around the housings for installation hardware and the Hexahedron 999 Unit.

For larger household and increased square footage use the TriPlex Big Blue 10 inch housing unit which comes with an additional KDF55@GAC filter. For municipalities using high concentrations of chlorine treatment the TriPlex housing unit is also recommended. The dimensions of the TriPlex Unit are : L-H-D 23.5" x 16.5" x 9" - again allow at least 8 inches around the housings for installation hardware and the Hexahedron 999 Unit.

#### **Specifications Whole House Unit - No Filters :**

Connection : 3/4 inch NPT  
Diameter : Approx 2 1/2" (5.1 cm)  
Length : Approx 9" (22.9 cm) (without adaptors)
